ASSET-BASED FINANCING

Asset Based Lending

Asset-Based Lending Solutions to Help You Leverage Your Assets to Grow Your Business

Businesses can use asset-based loans to create reliable cash flow in periods of high volatility. An asset-based line of credit requires borrowers to provide current collateral sources which may include any physical or liquid collateral available to your business such as receivables, inventory, equipment, or real estate.

An asset-based line of credit is revolving, giving you on-demand access to capital that adjusts with your business activity. Repay as receivables are collected and replenish the credit line.

Asset-heavy businesses can utilize ABL LOC to unlock capital tied up in hard assets while maintaining equity ownership. Many manufacturers, distributors, logistics providers, and retail centered businesses are excellent candidates for this type of working capital solution.

ABL Line of Credit Key Features

CREDIT FACILITIES	MONTHLY ASSET-BASED RATES	
$150,000 to $250,000,000	**from 0.75% to 2%**	✓ Fewer covenants than traditional bank loans
