ASSET-BASED FINANCING

Contract-Based Financing

Commercial Construction Subcontracting Financing Solutions

Winning the job is just the beginning. Labor, materials, equipment, bonding, and mobilization costs hit long before your first progress payment arrives. When subcontractors must wait to be paid by general contractors or owners, new business comes to a screeching halt.

If you are a subcontractor turning down work or not bidding on new projects for fear of not having enough cash to support your business, we can help provide mobilization funding against your contracts.

Contract-based financing can fund the costs of a single project upfront, using the strength of your contract, not your personal credit or hard assets, as the foundation. Great solution for self performing GCs, subcontractors, project management firms, or consultants that have been operating for 2+ years.

- ✓ Contract Loans
- ✓ Work in Progress (WIP) Financing (milestone based billing)
- ✓ Pay when paid contracts acceptable
