Ecommerce Financing

Financing for Amazon, Walmart, Shopify, and TikTok Shop Owners

Ecommerce financing provides growth capital for brands with repayment structured as a percentage of monthly revenue. This flexible approach aligns capital costs with business performance — you pay more during strong months and less during slower periods.

Businesses must collect revenue through online payment processors such as PayPal, Stripe, Amazon, Shopify, and similar ecommerce platforms.

- ✓ No fixed payments.
- ✓ No rigid repayment schedules.

Ecommerce Financing vs. Bank Loans or Venture Capital

- ✓ No personal guarantees
- ✓ Equity free financing
- ✓ No collateral required
- ✓ Quicker funding process

Funding for Direct to Consumer (DTC) Brands

Repay a fixed percentage of monthly revenue until the total funding amount plus fees are repaid. Automatic adjustment for revenue fluctuations.
