EQUIPMENT LEASING & FINANCE

Equipment Financing

Capital to Keep Things Running Smoothly

An equipment loan is a secured financing in which the transaction is collateralized by the equipment that the company currently owns or is planning to purchase.

Term loans require monthly interest and principal payments until the principal balance is repaid in full by the end of the term, all the while the borrower retains ownership of the equipment and our lending partners are granted a security interest in the equipment for the life of the transaction.

- ✓ 100% financing available
- ✓ Financing can include soft costs such as freight, shipping, delivery, and setup
