New Rate Saver Programs

0% Credit Card Processing + Free Smart Terminal

Credit Card Surcharge Rate Saver	Custom Rate Saver
This program allows the business to charge customers up to 3.00% on credit card transactions. Our partner utilizes a special smart terminal that automatically adds the specified percentage to the total and discloses it on receipts to maintain compliance. Surcharging is now becoming widely acceptable and more popular among business owners.	This program allows businesses to have 0% processing rate on all card types. The business is placed on a wholesale pass-through plan where they pay actual wholesale plus 0%, instead of paying a fixed processing rate. Our processing partner customizes a plan that includes a set monthly fee and an authorization fee per card.

Level III Processing Specialist

Our Merchant Services partner also specializes in business-to-business credit card processing where merchants accept business, corporate and purchasing card types from other businesses.

Traditionally, these B2B card types are some of the most expensive cards to accept. With Level III processing clients can significantly lower their credit card processing fees.

Ideal For

- Retail Stores
- Bar & Restaurants
- Hospitality
- Service Providers
